

Biography: Chris Linendoll, E.I.T.

Manager, Wastewater Permitting Section
Water Quality Division
Texas Commission on Environmental Quality

Current Position

Chris Linendoll, E.I.T., is the Manager of the Wastewater Permitting Section. He has been in this position since July 2003. Programs managed in the Wastewater Permitting Section include permitting of domestic/municipal wastewater treatment plants; permitting of industrial wastewater discharge facilities; stormwater permitting of construction activities, industrial activities, and municipal separate storm sewer systems; oversight of pretreatment programs; and permitting of reclaimed water systems.

Prior Experience and Education

Mr. Linendoll received a Bachelor of Science degree in Hydrology and Water Resources from Tarleton State University (part of the Texas A&M University system). He has been employed at the TCEQ since receiving his degree in 1991. Chris has spent the majority of his career at TCEQ and predecessor agencies in the wastewater permitting program; including serving as an industrial permit writer and as the Team Leader of the Industrial Permits Team.
